### Same Expertise & Professional Results, Now With A New Look & New Prices.

We are pleased to introduce our new brand and clinic logo for Susan Ghosh. You may remember our MyLook branding and this Summer we have given it a new look.

To celebrate the launch of Susan Ghosh Aesthetics, we couldn't be happier to announce that from July, we have issued a price drop on many of our most popular treatments. We care about our patients and when we grow, we reward our patients to say thank you with more affordable treatments. There are also some new platinum range treatments and even some special offers for the Summer to help you towards your next treatment with us.

### Beautiful Skin For A Lifetime

Environ® Skin Care achieves outstanding results for people who are serious about skin. Formulated by Dr Des Fernandes, a world-renowned plastic surgeon and packed with powerful antioxidants and active vitamins to help improve the appearance of lines, sun-damage, problem skin, uneven skintone and dryness.

**Did You Know** - Women first start to worry about looking older once they reach the age of 29. From about age 30 you begin to lose 1% of collagen every year!

**Did You Know** - The thinnest area of skin is around the eyes at 0.5mm. C-Quence Eye Gel contains antioxidants and peptides to firm, tighten and protects this fragile area.

**Did You Know** - Toners such as the AVST Moisturising Toner are an integral part of your daily routine to remove dirt and product residue, prepare the skin and balance pH levels

**Did You Know** - You can wake up to luminous skin by removing make-up and applying your creams before bed. Your skin has more time to regenerate when resting, allowing your products to work more efficiently.

**Collagen Stimulation Therapy (CST)** is another new cutting edge treatment that harnesses your bodies own natural powers of healing to tighten skin and achieve incredible results.

This therapy can be done on all areas of the face and body to treat visible signs of ageing, sun damage, scarring, slackened skin, stretch marks, uneven skin tone and dilated blood vessels. More information and prices can be found on our website.
