

**GHOSH MEDICAL GROUP**

PRIVATE MEDICAL PHARMACY AESTHETICS IV

CORONAVIRUS  
TESTING SERVICES

## Welcome

Thank you for considering Ghosh Medical Group for your 'Covid 19 Work Place Assistance.' We have a long history of screening and testing which is performed by senior medical clinicians including blood and urine tests performed at the highest quality and reliability. I strongly believe in the need for early detection of any medical issues in my efforts to help people live longer, healthier and happier lives.

This booklet provides in-depth catalogue of all the Covid 19 assistance available that our company offers. Maintaining your employees health is more important now than ever before. Please feel free to discuss your needs with our team. We provide tailored solutions that should relieve any worries or concerns that your employees may have about returning to work.

The screenings also provide you with a discrete opportunity to discuss any and all health concerns with a private medical team and we ask you to use this information alongside any medical advice given to develop a safe environment for your workplace.

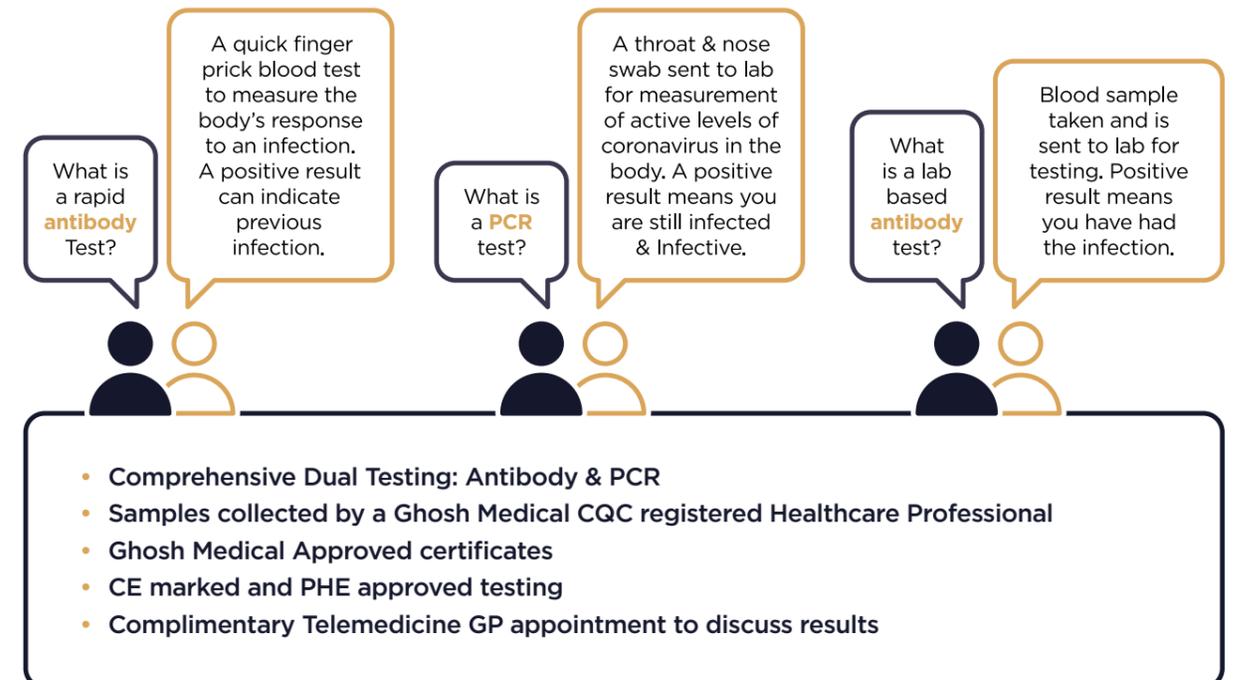

A private GP consultation can be used for further follow-ups if required so we can ensure you continue to receive the highest level of care.

We look forward to helping you.

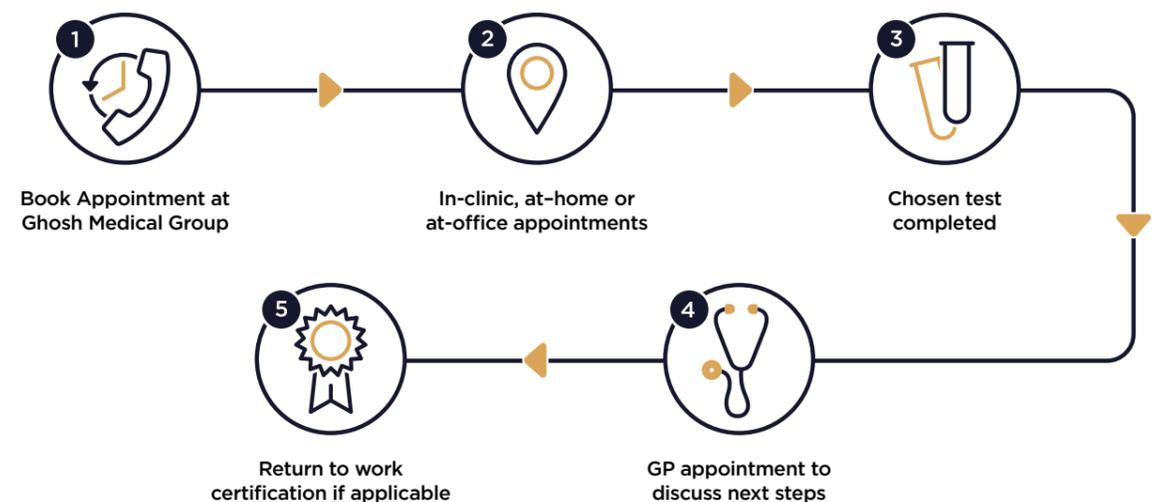

Dr Arun Ghosh MB ChB, MRCP, DFFP

## CORONAVIRUS TESTING SERVICES

As companies prepare to restart business and make tentative steps towards 'a new normal', the focus for leaders and employers is to protect the health and wellbeing of workers and ensure workplaces remain 'Covid-safe'. Ghosh Medical Group provide a comprehensive coronavirus testing service to Liverpool-based businesses. The service provides local and reliable PCR testing supported by rapid antibody testing for staff, all delivered by Ghosh Medical Group at a location of a business's choosing.

## THE PROCESS

## PPE (PERSONAL PROTECTIVE EQUIPMENT)

At Ghosh Medical we have spent years building connections across the medical industry. We are now in the position to bring you top quality PPE equipment at low prices with reliable delivery.

## WORKPLACE ENVIRONMENT CHANGES

The world is already a different place. Sanitisation has taken on a whole new meaning in everybody's everyday lives. With this in mind Ghosh Medical bring a range of solutions to assist in all commercial organisations with antibacterial wipes and sanitiser stations - both counter top and floor-standing. Corporate branding and graphics is available as options on all products.

## SANITISATION STATIONS

Hand sanitiser stations, complete with quality dispensers and plant displays. Ideal for Hotels, Restaurants, Care Homes, Clinics, etc.

## FLOOR STANDING & TABLE TOP STATIONS

Creative floor standing Hand Sanitiser Stations that ensure that you are providing peace of mind for all guests and visitors at your premises. Protecting ourselves and those around us is of utmost importance in our world today.

## WORK PLACE SCREENS - DESK FITTED & FLOOR STANDING

Innovative range of screens giving you peace of mind with a physical barrier to protect your staff and your visitors and yet maintaining clear vision and non-obtrusive design.

## FLOOR MARKING STICKERS

Keeping you and your customers safe.  
Makes things simple with maintaining government guidelines.  
Any design, any size and branding to help your staff and guests stay safe.

## WORKPLACE ASSESSMENT VISITS COMPLETING PPE CHECKLISTS

Just as under normal working conditions, the identification and assessment of risks in both physical and psychosocial working environments is the starting point for managing occupational safety and health (OSH) under COVID-19 measures. Employers are obliged to revise their risk assessment when there is a change to the work process and to consider all risks, including those affecting mental health. When revising the risk assessment, attention should be given to any anomalies or situations that cause problems and to how these can help the organisation become more resilient in the long term.

Ghosh Medical are able to carry out workplace assessments and recommend suitable solutions.

# PRIVATE HEALTH SCREENING
